

# Tallwood 1, Langford, BC, Canada: Eccentrically Braced Steel Frame Provides Lateral Support

**Ilana Danzig**

*Associate Principal, Aspect Structural Engineers*

**CTBUH 2022  
Steel-Timber Conference**

A collage of images related to tall timber and steel construction. It includes close-ups of wooden beams, a yellow vertical steel beam, and a worker in a yellow vest and blue cap working on a large wooden beam being hoisted by a crane against a blue sky with clouds. The images are arranged in a geometric, overlapping pattern.
